Information Manager 4 (TFL)

8001624563 - Incorrect Claim Values

v4.5.00 Adhoc fix date: 10/OCT/2013

Table of Contents

2. Introduction

This document defines the changes made to the Information Manager 4 (TFL) product for 8001624563 - Incorrect Claim Values and is specifically targeted at end users. Since this is an adhoc fix, newer released fixes that affect the following areas will also include this fix: Application 512 (The work trays for: Application review, Application Status, Work Orders to Instruct, Re-Submitted Work Orders, work Orders – Draft Status)

After reading through this document, should you have any further training or consultancy requirements then please contact your Bentley account manager.

3. Fix Details

Fix Details Baseline Release	v4.5.00
Fix Description	Address items discovered after the last fix
Prerequisites	CSL/TFL Deployment FIX 8
Implementation Instructions	• Unzip 2013.10.10 - 8001624563 - Incorrect Claim Values.zip to exor_base\patches\im\fix8 • Log onto SQL*PLUS as the Highways Owner with the exor_base\patches\im\2013.10.10 - 8001624563 - Incorrect Claim Values \install folder as the working directory. At the prompt type "STARTf512.sql" and press return. • No install log will be created so note any failures in the SQL terminal. • Exit SQL*PLUS. • Log into APEX and change the Variables to point to the correct environment as described (starting on page 13) in the IM4 Migration.pdf document (delivered 25/MAR/2013.)
Limitations	None known
Configuration Information	None
How To Test	Recommend full regression test
Rollback Strategy	Initially implement on a test environment

4. List of Amended Files

Filename	*Version*
N/A
